

Back office support that works the way you do.

Experienced help with your admin, data and scheduling - carried out in the spreadsheets and formats your team already knows. No new systems unless you want them.

Rail maintenance

Free, no-obligation appraisal | contact@tucalo.com

You run a hands-on business. The paperwork shouldn't run you.

1

Spreadsheets pile up

Timesheets, rosters, certifications, plant and job records - often spread across dozens of Excel files kept by whoever has time.

2

Admin falls on skilled staff

Engineers, site managers, yard staff and farmers end up doing office work in the evenings instead of the job they're best at.

3

Seasons and projects peak

New contracts, the boating season or harvest bring surges of admin - hiring and training someone for a few months rarely makes sense.

Built around four industries

Rail maintenance

Safety-critical work, competencies and shift patterns that have to be right every time.

Construction

Multiple sites, subcontractors, plant and projects moving at different speeds.

Leisure marine

Boatyards, marinas and service businesses juggling seasonal demand and customer work.

Farming

Livestock, land, machinery and seasonal labour - with records that all need keeping.

Our team brings 30 years of experience across business operations in many industries, including engineering sectors where better processes save costs and improve safety.

Start simple. Go further only if you want to.

STEP 1 | START HERE

Support in the tools you already use

- ✓ We work in your Excel sheets and formats
- ✓ Nothing new for your team to learn
- ✓ Help with daily workload from day one
- ✓ Tidier, more reliable data as we go

↓ optional

STEP 2 | WHEN YOU'RE READY

Move to software and automate

- ✓ Your processes move onto Ai Work Agent
- ✓ Repetitive work becomes automated
- ✓ Lower running costs than manual work
- ✓ No tie-in - leave whenever you like

Many customers stay at Step 1. You decide if and when to take the next step - there's no pressure.

We fit into your business - not the other way round

Most back office providers ask you to change how you work before they can help. We don't. We pick up tasks in the spreadsheets, templates and reports you already rely on, so your team sees the benefit immediately.

Your files. Your formats. Less of your time.

Weekly_Roster_Site_B.xlsx					
Name	Role	Mon	Tue	Wed	Cert. expiry
J. Carter	Supervisor	Day	Day	Off	12/2026
M. Singh	Technician	Night	Night	Night	03/2027
R. Evans	Operative	Day	Off	Day	10/2026
L. Brooks	Operative	Off	Day	Day	08/2027
T. Hughes	Technician	Day	Day	Day	01/2027
S. Patel	Plant op.	Night	Off	Day	11/2026

Illustrative example

✓ No new software

✓ No staff training

✓ Up and running quickly

Typical tasks, by industry

Rail maintenance

- ✓ Staff competency & certification tracking
- ✓ Asset & maintenance scheduling
- ✓ Shift rostering & timesheets
- ✓ Training records & renewal reminders

Construction

- ✓ Site rostering & labour timesheets
- ✓ Project planning & progress tracking
- ✓ Plant & equipment registers
- ✓ Subcontractor & supplier records

Leisure marine

- ✓ Boat servicing & work scheduling
- ✓ Seasonal staff rostering
- ✓ Parts & stock inventory
- ✓ Customer accounts & invoicing

Farming

- ✓ Livestock & field records
- ✓ Seasonal labour rostering & payroll
- ✓ Machinery & fleet maintenance logs
- ✓ Accounts & supplier records

Back office services we provide

Data

Cleansing, rationalisation, intelligence & management

Accounts & Payroll

Accurate, on-time finance admin

Rostering

Right people, right shifts

Planning & Scheduling

Keep work flowing without the juggling

Asset Management

Track, maintain and control your assets

Fleet Management

Vehicles, plant, compliance & servicing

Training & Competencies

Stay compliant and audit-ready

Project Management

Deliver on time, with clear control

Ready to go further? We make the move easy

1

We already know your work

Having handled your tasks, we understand exactly how your business runs.

2

Your data is already clean

The spreadsheets we've been maintaining are tidy and ready to migrate.

3

We automate it

Your processes move onto Ai Work Agent, and repetitive work runs itself.

4

You hand over less

Each area comes back to you with a much lighter workload and lower cost.

Consulting and engineering happen behind the scenes at no charge. If our software needs enhancing to fit your business, that's our problem - you're not charged for it.

Ai Work Agent

A software-as-a-service platform covering the main aspects of running your back office - the home for everything we automate for you. Work from the office, the site, the yard or the field.
